### EDUCATION

#### The Pennsylvania State University

B.S. Cybersecurity Analytics and Operations

University Park, PA

May 2025

- Major GPA: 3.83/4.0
- Minors: Security Risk Analysis (SRA) and Information Systems Technology (IST).
- Awards: Pennsylvania State University Vice Provost Award. Dean's List sFall 2022, Fall 2023, Spring 2024, and Spring 2025.
- Relevant Courses: Networking & Telecommunications, Security Analytics Studio, Malware Analysis, Information Security Management, and Spatial Analysis of Risk.

### RELATED TECHNICAL EXPERIENCE

#### Digital Cloak LLC

Technical Intern

Stafford, VA

June 2024 - August 2024

- Deployed and configured security-focused infrastructure and services to support secure network operations.
- Designed and trained a locally hosted AI Cybersecurity Compliance Assistant using insights from 150+ regulatory and security documents.
- Supported compliance workflows aligned with NIST SP 800, CMMC, Incident Response (IR), and OSINT best practices.
- Contributed to security monitoring and operational strategies to improve incident visibility and response readiness.

#### Penn State University College of IST

Learning Assistant (Cyber 262 & IST 456)

University, PA

January 2023 - December 2024

- Led hands-on instruction in network defense, system hardening, and incident response for undergraduate cybersecurity courses.
- Assisted students with Linux systems, virtual machines, and security labs.
- Collaborated with faculty to refine lab exercises to better reflect real-world SOC and enterprise security practices.

#### Penn State Homecoming Technology Committee

Technology Captain

University Park, PA

Spring 2024 - Fall 2024

- Managed and revamped the Penn State Homecoming website using WordPress and Elementor to integrate new features and improve website functionality.
- Maintained a user-friendly and visually appealing website, ensuring it was up to date with the latest information and events.

Competitive Cyber Security Organization (CCSO)

Fall 2021 – Spring 2025

#### AG Parts Worldwide Inc.

Computer Technician

South Greensburg, PA

June 2019 - August 2019

- Worked with teardown and developed an understanding of crucial computer hardware components, enabling quicker troubleshooting and assembly.

### WORK EXPERIENCE

#### Men's Wearhouse

Part-Time Sales Associate

State College, PA

May 2022 – May 2025

- Delivered high-quality customer support in a fast-paced environment while resolving customer issues professionally.
- Communicated clearly with diverse customers and trained new employees on systems and processes.

### PROJECT EXPERIENCE

#### GolfCaddie - Your Personal Golf Assistant:

August 2024 - Present

- Designed and trained an AI-powered chatbot to assist golfers by providing real-time advice and personalized recommendations. Utilizing PGA rules, swing training documentation, and user personalized selections for the most accurate response possible. GolfCaddie analyzes basic variables like distance to target, pin location, and user-specific club distances (yardages) to select the best club to use at any time.

#### Web Design:

Fall 2023 - Present

- Developing and coded professional websites using tools like VS Code, Next.js, and technologies such as HTML, JavaScript, and Tailwind CSS. Designing and maintaining personal portfolio and contributing to websites for organizations, including Penn State Homecoming and Hunters Warehouse.

#### CloakAI:

August 2024

- Built a locally hosted AI chatbot specializing in cybersecurity compliance and best practices. Integrated 150+ documents covering NIST SP 800, CMMC, IR, and OSINT frameworks. Designed to support analyst decision-making and compliance interpretation without cloud data exposure.

#### Internship Project:

June 2024 - August 2024

- Collaborated with a team to implement a secure infrastructure for real-time monitoring and analysis of network security events. Contributed to system configuration and operational strategies to enhance incident detection and response capabilities.

#### DiamondStatTrax:

Fall 2023 - Spring 2024

- Developed and coded a baseball statistics tracking application, enabling users to view, retrieve, and share personal and team performance data. Focused on user-friendly interfaces and database management for seamless data retrieval and analysis.

### CERTIFICATIONS

Fortinet Training Institute: Introduction to the Threat Landscape 3.0, Getting Started in Cybersecurity 3.0.

December 2025

NSA IST Certification

May 2025

DOD Mandatory Controlled Unclassified Information Training (CUI)

June 2024

LinkedIn Learning Certifications:

Fall/Spring 2023

- Cybersecurity Awareness: Cloud Security, Cybersecurity Awareness: Cybersecurity Terminology, Cybersecurity: Key Policies and Resources.

### SKILLS

**Cybersecurity & Systems:** Ethical hacking, incident response, network security; SIEM (Splunk, ELK); Linux (Ubuntu, Debian, Raspbian); virtual machine deployment and management.

**Programming Languages:** Developed applications and websites using Java, JavaScript, Python, C#, SQL, HTML/CSS, and Tailwind.

**Technical Tools & Frameworks:** Experienced with VS Code, IntelliJ, Visual Basic, WordPress, Next.js, .NET, and Linode for software development, web design, and cloud deployment.
