EDUCATION

The Pennsylvania State University

B.S. Cybersecurity Analytics and Operations

University Park, PA

May 2025

- Major GPA: 3.83/4.0
- Minors: Security Risk Analysis (SRA) and Information Sciences and Technology (IST).
- Awards: Pennsylvania State University Vice Provost Award, Dean's List Fall 2022, Fall 2023, Spring 2024, and Spring 2025.
- Relevant Courses: Networking & Telecommunications, Security Analytics Studio, Malware Analysis, Information Security Management, and Spatial Analysis of Risk.

RELATED TECHNICAL EXPERIENCE

Aquila Digital

Founder | Freelance Web, App, & IT Services (LLC in progress)

Akron, OH

Fall 2023 - Present

- Provide paid web design, application development, and IT services to local businesses; independently designed and coded client and organizational websites, like DBP Academy, using VS Code, Next.js, HTML/JavaScript, and Tailwind CSS.
- Expanding service lines into workflow automation, cybersecurity informed IT support, and technology literacy seminars for older adults at local senior living communities.

Digital Cloak LLC

Technical Intern

Stafford, VA

June 2024 - August 2024

- Deployed and configured security focused infrastructure and services to support secure network operations.
- Designed and trained a locally hosted AI Cybersecurity Compliance Assistant using insights from 150+ regulatory and security documents.
- Supported compliance workflows aligned with NIST SP 800, CMMC, Incident Response (IR), and OSINT best practices.
- Contributed to security monitoring and operational strategies to improve incident visibility and response readiness.

Penn State University College of IST

Learning Assistant (Cyber 262 & IST 456)

University, PA

January 2023 - December 2024

- Led hands on instruction in network defense, system hardening, and incident response for undergraduate cybersecurity courses.
- Assisted students with Linux systems, virtual machines, and security labs.
- Collaborated with faculty to refine lab exercises to better reflect real-world SOC and enterprise security practices.

Penn State Homecoming Technology Committee

Technology Captain

University Park, PA

Spring 2024 - Fall 2024

- Managed and revamped the Penn State Homecoming website using WordPress and Elementor to integrate new features and improve website functionality.
- Maintained a user-friendly and visually appealing website, ensuring it was up to date with the latest information and events.

AG Parts Worldwide Inc.

Computer Technician

South Greensburg, PA

June 2019 - August 2019

- Worked with teardown and developed an understanding of crucial computer hardware components, enabling quicker troubleshooting and assembly.

WORK EXPERIENCE

Men's Wearhouse

Store Lead | Sales Associate

State College, PA

May 2022 - May 2026

- Led daily store operations with manager system authorization; supervised associates, coordinated coverage, and supported onboarding.
- Delivered high-quality customer service, resolved escalated issues, communicated clearly with customers, and supported sales performance.

PROJECT EXPERIENCE

Aquila Digital:

Fall 2023 - Present

- GolfCaddie – Your Personal Golf Assistant: AI-driven golf decision assistant built with, Retrieval-Augmented Generation (RAG); recommends club selection in real time from PGA rules, swing data, club-distance yardages, distance to target, and pin location.
- Finio: Personal finance budgeting app that captures mobile purchase/charge notifications and logs them directly into a budget in real time, eliminating manual spreadsheet entry; not linked to any bank accounts, keeping financial data private and secure.
- QuoteWork: Modular invoice generator for service businesses; the invoice updates live as pricing and add-ons are selected during a client consultation, with options to save/edit a draft or submit a final invoice that is printed or emailed directly to the client.

CloakAI:

August 2024

- Built a locally hosted AI chatbot specializing in cybersecurity compliance and best practices. Integrated 150+ documents covering NIST SP 800, CMMC, IR, and OSINT frameworks. Designed to support analyst decision-making and compliance interpretation without cloud data exposure.

Internship Project:

June 2024 - August 2024

- Collaborated with a team to implement a secure infrastructure for real-time monitoring and analysis of network security events. Contributed to system configuration and operational strategies to enhance incident detection and response capabilities.

CERTIFICATIONS

Fortinet Training Institute: Introduction to the Threat Landscape 3.0, Getting Started in Cybersecurity 3.0.

December 2025

NSA IST Certification

May 2025

DOD Mandatory Controlled Unclassified Information Training (CUI)

June 2024

LinkedIn Learning Certifications:

Fall/Spring 2023

- Cybersecurity Awareness: Cloud Security, Cybersecurity Awareness: Cybersecurity Terminology, Cybersecurity: Key Policies and Resources.

SKILLS

Cybersecurity & Systems: Ethical hacking, incident response, network security; SIEM (Splunk, ELK); Linux (Ubuntu, Debian, Raspbian); virtual machine deployment and management; security automation and workflow integration.

Programming Languages: Developed applications and websites using Java, JavaScript, Python, C#, SQL, HTML/CSS, and Tailwind.

Technical Tools & Frameworks: Experienced with VS Code, IntelliJ, WordPress, Next.js, .NET, Vercel; LLM integration, RAG, prompt engineering, document ingestion pipelines, and vector search.
